

## School Uniform 2015-2016

### Purpose

Our students are preparing for high school, college, and the work place. When our students present themselves with a high standard of dress, they maintain that they are working toward future success. It is essential that we work together to maintain the public's high regard for our school. One very sensible strategy is to ensure our students' standard of dress is constantly excellent. Together we must commit to helping our students reach the highest standards in all aspects of life including dress. Our partnership is key in order to accomplish this goal.
