

## Daily Memo

**Date:** Monday, March 30, 2020

**Duration of Closure:** HOPE Christian Schools will remain closed until further notice. We are working on plans for when students return and plans if our students do not return before the end of the school year.

### **Virtual Learning Begins:**

By this time, most of our scholars have been invited by their teachers to join Google Classroom. Our goal is to have all of our teachers presenting lessons virtually by April 1. We are excited to begin this journey with our scholars and to continue to provide high quality instruction to them.

### **Google Classroom:**

Semper Sharks, don't forget that Google Classroom starts April 1. We have many scholars that haven't logged on. If you need assistance, please contact your child's teacher or principal Lee. It is imperative that your scholar is logged on and completing assignments. All assignments will be graded, and they will receive participation points for logging in. We will make an exception for scholars that haven't received Chromebooks due to our limited supply. We are doing everything we can to ensure that every scholar that needs a computer receives one. If there is any way that we can assist you, please reach out to let us know. We want to help make this challenging time as easy as we can for you and your scholar!

### **Contacting HOPE Schools:**

Even though our schools are closed, and our administrators and teachers are working from home, you may still contact your child's principal or teacher if you have concerns or questions. All calls made to your school's office will be routed to a staff member working off-site who can help you.

### **HOPE High School Events:**

Although we have cancelled Prom, we have not, at this point, made any decisions regarding Senior Signing Day or Graduation. We realize that the dates of those events are growing closer, and we promise to notify you as soon as we have decided whether to cancel those events or not. We appreciate your patience.

HOPE Christian Schools value the health and well-being of our scholars. Thank you for allowing us the time to gather the facts on the recent COVID-19 (Coronavirus) and the implications it has on our schools, families and team members.

Blessings,

**Jameela Lee | Principal**
